I'll Find at Least $25,000 Hiding in Your Change Orders and Put an AI Employee to Work Bringing It In... or Your Money Back

First I find exactly where the money is. Then I build AI employees that work 24/7 to bring it in. Live in about two weeks, from $2,500.

TRUSTED BY COREL SONY Google TOSHIBA Microsoft general motors COLLECTORZ AGORA AWAI STREETAUTHORITY WEISS RESEARCH

You already did the work. Some changes and extras never made the invoice.

Open quotes. Unbilled change orders. Past-due invoices. I've been hired to consult with over 317 companies, from Sony Media to St. Jude. Every single one had unrealized profit, and needed three things to get it.

1. **Discovery** to find the profit.
2. **A plan** to go get it.
3. **The systems and manpower** to get it done.

But most owners are too busy to pin down #1 and #2. So they bolt AI onto #3... and get mediocre results faster, for more money.

We find the profit, make the plan, then deploy ASIEs to get it done.

What's inside your Profit Engine

- ✓ **Your Profit Roadmap.** We identify your top 3 unrealized profit opportunities, ranked by what each one is worth.
- ✓ **80/20 System Design.** A step-by-step plan to go get that money, built around how your shop really runs.
- ✓ **ASIE Built and Deployed.** We don't just consult. We deliver your AI system and all the training needed.

25 years of finding money companies missed

Found in their operations and marketing.

St. Jude **$22 to $34**	Average gift.
TechnicalLead **$20K to $300K+**	Monthly revenue, after a 90% drop. We rebuilt the pricing and the offer.
Collectorz **$3M to $15M**	In 24 months.
Corel **$24M campaign**	With a 29.4% buy rate.

> *"They got to the root of problems we didn't even know we had."*
>
> **Conrad Feagin, CEO, TechnicalLead**

> *"Joshua... immediately tripled his client's business in less than three months."*
>
> **Perry Marshall, author of *80/20 Sales and Marketing***

WHAT'S AN ASIE? Dozens more to choose from

Autonomous Super Intelligent Employee

An AI employee that does one job well, 24/7. Like...

- **An estimating assistant** who gets every quote out fast.
- **A follow-up salesman** who calls back every open quote.
- **A change-order tracker** who bills every revision and extra.

Call (832) 430-6855 right now

That's my AI front desk. It books you a time with me.

How it works

Your Profit Engine, up and running in about two weeks.

1. **Discovery.** You, me and your key people walk through how the shop really runs and dig into your real numbers.
2. **Deep 80/20 planning.** We focus on estimating, change orders and billing, find high-leverage ways to capture your unrealized profit, and map it out in your Profit Roadmap.
3. **Build and launch.** We build and deploy your first ASIE so you see results right away.

Pick your Profit Engine

Every option includes your Profit Roadmap and the build.

$2,500	**1 ASIE** On your #1 opportunity.
$5,000	**2 ASIEs** On your top two opportunities.
$7,500	**3 ASIEs** Biggest jump, shortest time.

Your fee carries forward. Add more ASIEs within 60 days of your Roadmap and every dollar you paid counts toward them.

Hosting runs about $100 to $500 a month after delivery.

Choose yours at strahes.com/fabrication

PROMISE 10x MONEY BACK

If we don't find 10x your Profit Engine fee in unrealized profit opportunities, you get every dollar back.

You pay half to start. You approve the 10x at your Roadmap readout, before we build anything. On a $2,500 Profit Engine, if we don't find at least $25,000, we refund your deposit and the Roadmap is yours.

Claim 1 of 10 spots before December 31.

Your Profit Engine, up and running in about two weeks. **From $2,500.**

See it all and claim your spot at

strahes.com/fabrication

Start with a 50% deposit. Refunded if we miss 10x.
